

Parklands Boulevard Upgrade Meridan Plains

Project number: P-H1244

Night works

**Various locations, Sunset Drive - Parklands Boulevard intersection
Sunday 23 February – Thursday 27 February 2020, 5.30pm – 3am
(weather and site conditions permitting)**

To progress construction of the Parklands Boulevard Upgrade as quickly and safely as possible, some night works are required. Night works help to minimise inconvenience to motorists along Parklands Boulevard and surrounding streets during peak travel periods.

From 23 – 27 February, night works will be undertaken to install electrical conduits under the road surface at various locations in and around the Sunset Drive – Parklands Boulevard intersection.

Over a period of 4-5 nights the road surface will be cut, and electrical conduits installed underground in preparation for the future, upgraded intersection. Where possible, noisier works will be undertaken earlier in the evening.

To minimise inconvenience to the community, two work crews will be used. This will halve the time required to complete the works while maintaining access through the intersection under traffic control.

What to expect during these works

Audible noise: Heavy machinery will be in use and nearby residents should expect some audible noise. Reversing beepers and flashing lights are a safety requirement.

Traffic control and changes to traffic conditions: Changes to traffic conditions including reduced speed limits and temporary lane closures will be in place. Minor traffic delays can be expected so please allow an extra 5-10 minutes for any travel.

Temporary lighting: Generator powered lighting towers will be used to light work areas. Lighting is a safety requirement.

Emergency vehicle access: Emergency access will remain available to homes and businesses under the direction of traffic control.

We thank you for your patience and cooperation during these works.

Register to receive construction updates

Council's primary method of communicating construction information is via email updates. If you, or someone you know wishes to receive future updates please email your/their contact details including name, business name (if applicable), email address and phone number to:
parklandsboulevard@sunshinecoast.qld.gov.au

Contact the project team
