

Mooloolaba Transport Corridor Upgrade (MTCU) Project

Project number: H3731

Naroo Court and Muraban Street - changes to traffic conditions Week commencing 8 July to early November 2019 (weather permitting)

New roundabout – Muraban Street

As part of the Mooloolaba Transport Corridor Upgrade (MTCU) a new roundabout is being constructed at the intersection of Muraban Street and Naroo Court.

Construction works include a stormwater drainage upgrade, a new roundabout, laying new asphalt (road surface) and new street lighting.

Access to residences and businesses along Naroo Court and Muraban Street will be maintained during the construction period, however temporary changes to traffic conditions will apply.

What to expect during these works

Construction work will generally be carried out between 7.00am-6.30pm, Monday to Saturday.

Intermittent night works may be required. The project team will advise local residents and businesses of any night works in advance.

Temporary changes to traffic conditions

To ensure the safety of pedestrians, motorists and construction workers, Muraban Street and Naroo Court will be open to local traffic only.

Through access from Naroo Court to Muraban Street, or Smith Street to Muraban Street will not be available.

A partial closure of Naroo Court and Muraban Street will apply for the duration of works (from July through to November).

Detours will be in place and traffic management will apply as required.

Pedestrian traffic will be diverted to alternative footpath routes where necessary.

Some on-street parking in Muraban Street will be temporarily affected.

Signage will help to communicate the changed traffic conditions to residents and visitors.

The project team will liaise with directly affected owners and residents about temporary access changes to driveways where required.

Medium level, intermittent construction noise can be expected.

The construction team will try to mitigate construction impacts in relation to surrounding residents wherever possible and safe to do so.

Please see the **map on page 2** for further details.
