

**Mooloolaba Transport Corridor  
Upgrade (MTCU) Project**  
*Stage 1b – Walan Street, Mooloolaba*

Project number: H9272

**Notice to residents**  
**Water main works, 33 – 19 Walan Street, Mooloolaba**  
**Monday 8 June – Saturday 20 June, 7am – 6pm**  
(weather & site conditions permitting)**Water main upgrade**

As part of the MTCU project, the water supply infrastructure is being relocated and upgraded. This will ensure the water supply network continues to work effectively and efficiently.

A new water main will be installed in the public road corridor between Bahlaka Street and Venning Street, in front of properties from 33 - 19 Walan Street.

No interruption to water supply is expected.

Please see the map on page 2 for the location of these works.

**What we are doing during these works**

The new water main pipe will be installed underground. Areas of the footpath, road verge and driveways will be cut, and a trench will be dug to accommodate the pipe.

After the pipe is installed, the trench will be infilled with a temporary surface until a permanent surface is applied later in the construction program.

This temporary arrangement is expected to be in place for a period of approximately six months.

**Temporary changes to traffic conditions**

Works will start at 33 Walan Street and continue down to 19 Walan Street.

Where private driveways are affected, they may be inaccessible to vehicles for a period of 5 - 6 hours at a time. The project team will provide residents with advance notice of each driveway's construction schedule to allow for forward planning.

Pedestrian access will remain to residences.

For safety reasons the pedestrian footpath on the western side of Walan Street will be closed during these works. Pedestrians will be diverted to the alternative footpath on the eastern side of Walan Street.

**What to expect during these works**

Works are expected to generate low-medium level intermittent noise. Large vehicles and heavy machinery will be on site. Site personnel will assist motorists and pedestrians.

**Register to receive project updates**

To receive regular project updates throughout the construction period, please register your contact details by emailing them to
