## Part 10 Other plans

### 10.1 Preliminary

- (1) Other plans provide the planning framework for declared master planned areas and other major greenfield areas for which a structure plan has been prepared.
- (2) The Palmview Structure Plan for the Palmview declared master planned area is a structure plan for the planning scheme.
- (3) Structure plans include the following:-
  - (a) a structure plan area strategic framework;
  - (b) structure plan area precincts and sub-precincts and tables of assessment; and
  - (c) a structure plan area code.

Structure plans operate for the most part as separate planning frameworks with only limited references to and interaction with the balance of the planning scheme. Where there is an interaction between a structure plan and another part of the planning scheme this is clearly set out in the structure plan.

- (4) Structure plan maps are included in **Schedule 2 (Mapping)**.
