

## 8.2.13 Water resource catchments overlay code<sup>49</sup>

### 8.2.13.1 Application

- (1) This code applies to assessable development:-
  - (a) subject to the water resource catchments overlay shown on the overlay maps contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Water resource catchments overlay code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) All provisions in this code are assessment benchmarks for applicable assessable development.

### 8.2.13.2 Purpose and overall outcomes

- (1) The purpose of the Water resource catchments overlay code is to protect the following water supply catchments that are wholly or partly contained in the Sunshine Coast:-
  - (a) Cooloolabin Dam and Wappa Dam;
  - (b) Baroon Pocket Dam;
  - (c) Ewen Maddock Dam; and
  - (d) Somerset Dam and Wivenhoe Dam.
- (2) The purpose of the Water resource catchments overlay code will be achieved through the following overall outcomes:-
  - (a) development is located, designed and managed to avoid adverse impacts on water quality in a water supply catchment;
  - (b) development maintains and contributes to improving water quality in a water supply catchment;
  - (c) development promotes sustainable land use practices within a water supply catchment;
  - (d) development protects and enhances land resources, natural systems and *vegetation* within a water supply catchment; and
  - (e) development in a water supply catchment ensures that there is no cumulative impact on water quality.

### 8.2.13.3 Performance outcomes and acceptable outcomes

**Table 8.2.13.3.1 Performance outcomes and acceptable outcomes for assessable development**

Performance Outcomes		Acceptable Outcomes	
<i>Effects of Development on Water Supply Storages and Water Supply Catchment Areas</i>			
<b>PO1</b>	Development complies with the specific outcomes of the <i>SEQ Water Development Guidelines for Water Quality Management in Drinking Water Catchments</i> as if the specific outcomes are performance outcomes.	<b>AO1</b>	Development complies with the measures of the <i>SEQ Water Development Guidelines for Water Quality Management in Drinking Water Catchments</i> as if the measures are acceptable outcomes.

<sup>49</sup> Editor's note—*water supply storages* and *water resource catchment areas* are identified on the Water Resource Catchments Overlay Maps in **Schedule 2 (Mapping)**.
