

8.2.13 Water resource catchments overlay code⁴⁸

8.2.13.1 Application

- (1) This code applies to assessable development:-
 - (a) subject to the water resource catchments overlay shown on the overlay maps contained within **Schedule 2 (Mapping)**; and
 - (b) identified as requiring assessment against the Water resource catchments overlay code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) All provisions in this code are assessment benchmarks for applicable assessable development.

8.2.13.2 Purpose and overall outcomes

- (1) The purpose of the Water resource catchments overlay code is to protect the following water supply catchments that are wholly or partly contained in the Sunshine Coast:-
 - (a) Cooloolabin Dam and Wappa Dam;
 - (b) Baroon Pocket Dam;
 - (c) Ewen Maddock Dam; and
 - (d) Somerset Dam and Wivenhoe Dam.
- (2) The purpose of the Water resource catchments overlay code will be achieved through the following overall outcomes:-
 - (a) development is located, designed and managed to avoid adverse impacts on water quality in a water supply catchment;
 - (b) development maintains and contributes to improving water quality in a water supply catchment;
 - (c) development promotes sustainable land use practices within a water supply catchment;
 - (d) development protects and enhances land resources, natural systems and *vegetation* within a water supply catchment; and
 - (e) development in a water supply catchment ensures that there is no cumulative impact on water quality.

8.2.13.3 Performance outcomes and acceptable outcomes

Table 8.2.13.3.1 Performance outcomes and acceptable outcomes for assessable development

Performance Outcomes		Acceptable Outcomes	
<i>Effects of Development on Water Supply Storages and Water Supply Catchment Areas</i>			
PO1	Development complies with the specific outcomes of the <i>SEQ Water Development Guidelines for Water Quality Management in Drinking Water Catchments</i> as if the specific outcomes are performance outcomes.	AO1	Development complies with the measures of the <i>SEQ Water Development Guidelines for Water Quality Management in Drinking Water Catchments</i> as if the measures are acceptable outcomes.

⁴⁸ Editor's note—*water supply storages* and *water resource catchment areas* are identified on the Water Resource Catchments Overlay Maps in **Schedule 2 (Mapping)**.
