

**Parklands Boulevard Upgrade
Meridan Plains**

Project number: P-B4250

**Energex works. Temporary road and footpath closures, Meridan Way,
between Parklands Boulevard and Hamilton Street.
Saturday 2 November to 8 November (weather and site conditions permitting)**

As part of the delivery of the Parklands Boulevard Upgrade Project, underground services upgrades and relocations are required. These include Energex works around the intersection at Parklands Boulevard and Meridan Way, and along Meridan Way.

Please see the information below and maps on page 2 for more details.

**Temporary road closure, section of Meridan Way.
Saturday 2 November, 6.30am – 5.30pm**

Energex contractors and council will be installing new underground electrical conduits across Meridan Way. These works have been scheduled on a Saturday to help minimise inconvenience to the community by avoiding the weekday commuter and school traffic.

These works form an important part of the ongoing preparation for the four-lane road widening of Parklands Boulevard later this year.

No disruption to electricity is expected.

Changes to traffic conditions

The section of Meridan Way between Parklands Boulevard and Hamilton Street will be temporarily closed to all vehicle traffic during these works. Detours will be in place via Creekwood Avenue and Hamilton Street (see map on page 2)

Signage and traffic controllers will be on site to help motorists and pedestrians navigate around the works. Please allow an extra few minutes for travel. The road will reopen to traffic from 5.30pm.

**Footpath closure, section of Meridan Way.
Monday 4 November – Friday 8 November**

To permit further Energex works, a section of the footpath on Meridan Way will be excavated from Monday 4 November – Friday 8 November. Some vegetation will also be removed and replaced after the works.

For safety reasons this section of the footpath will be closed during this period (day and night), with pedestrian detours in place. Please see the map on page 2 for more details.

What to expect during these works?

Medium level, intermittent construction noise can be expected including the cutting and removal of portions of the road surface and sections of footpath. Large machinery will be in operation and large vehicle movements will be required.

The construction team will liaise with directly affected residents and try to mitigate impacts to surrounding homes and businesses wherever possible and safe to do so.
