Sippy Downs Drive Upgrade
Stage 4

Roadworks completion and new traffic signals in operation
Sippy Downs Drive and Alexander Street
From 12.30am, Tuesday 10 December (weather permitting)

New traffic conditions - four traffic lanes open and new traffic signals from 12.30am Tuesday 10 December

We are pleased to advise that major roadworks have been completed one week ahead of schedule.

Following the activation of the new traffic signals at the intersection of Sippy Downs Drive and Alexander Street, and line marking this evening (Monday 9 December), the four traffic lanes on Sippy Downs Drive will be open from tomorrow, 12.30am Tuesday 10 December.

Motorists are advised to take extra care when driving through the area so as to allow time to become familiar with the new road conditions.

New traffic signals at Sippy Downs Drive – Alexander Street

The new traffic signals at the Sippy Downs Drive – Alexander Street intersection will be activated tonight, Monday 9 December. Please see the map on page 2 for further details.

Should you wish to discuss any aspects of these works, or have any concerns, please contact our team via the project email address.

Entry statement and final landscaping

The stunning new entry statement at the corner of Sippy Downs Drive and University Way will be installed in early 2020 after the University and school term recommences.

Sunshine Coast Council partnered with the University of the Sunshine Coast (USC) and community stakeholders to create an eye-catching design which pays tribute to the area’s natural beauty and knowledge capabilities.

Two large wing inspired sculptures will be complemented by native plant species, along with digital information about the flora and fauna of Sippy Downs. Footpath art will be created with the help of school children and there will also be seating, a water bubbler and bins inspired by a local caterpillar species.

Thank you from the project team

We would like to thank the community for your patience and cooperation during this project. The project email address below will be deactivated on Friday 13 December. Please contact council’s customer service team after this date about this project.
