Sippy Downs Drive Upgrade
Stage 4

Night works – Sippy Downs Drive and Service Road
Preparation for stormwater works
Thursday 2 May 6pm - midnight (weather permitting)

Night works
As preparation for Saturday’s planned stormwater works some advance construction works will take place on Thursday evening, 2 May from 6pm – midnight (weather permitting).

What construction is happening?
To enable the new stormwater pipe trenches to be dug and new pipes inserted, cuts will be made to the road surface and a new stormwater pit constructed.

During this work an excavator machine will be positioned on the west bound lane of Sippy Downs Drive.

Temporary changes to traffic conditions
To minimise inconvenience to the community this work has been scheduled to take place at night.

Partial lane closures will be in place along Sippy Downs Drive and the mid-way entrance to the Service Road will be temporarily closed from 6pm – midnight. During this time the Service Road will operate as one-way traffic only (east to west).

Entry from Sippy Downs Drive to the Service Road will be available via the Sippy Downs Drive-High Street U-Turn facility only.

Contact the project team
For further information about these works, please visit the website or contact the project team via:
T: 5475 7272
E: sippydowns@sunshinecoast.qld.gov.au

Night lighting is required to allow the construction team to operate and for safety reasons.

Intermittent, medium level construction noise is to be expected including the operation of machinery and large vehicle movements.

The project team will liaise with directly affected residents and try to minimise the construction impacts wherever safe and practical to do so.

Please refer to the map on page 2 for more details.
