Sippy Downs Drive Upgrade

Project number: P-B4250

Night works
Chancellor Park Golf Driving Range driveway construction
Friday 31 May 6.30pm – midnight (weather permitting)

Golf Driving Range - 15 Sippy Downs Drive

As part of road works associated with building two additional new road lanes on Sippy Downs Drive, some construction is required to change the level of existing driveways to meet the new road levels.

Following recent construction works, the driveway to Chancellor Park Golf Driving Range will be closed for asphalt laying (laying of the new driveway surface) on Friday evening from 6.30pm – midnight (weather permitting).

For safety reasons, while the new asphalt is being laid and is curing, the driveway will be closed.

The driveway will reopen to traffic by 8am Saturday morning as per usual business operations.

What to expect during construction

Intermittent, medium level construction noise is to be expected including the operation of machinery and large vehicle movements.

Asphalt is a common material used for paving roads, parking lots and roofing. Nearby residents may detect odours from the new asphalt as it is being laid. Please keep doors and windows closed if you are sensitive to this odour.

The project team will try to minimise the construction impacts wherever safe and practical to do so.

We thank the Chancellor Park Golf Driving Range and residents for their co-operation and understanding as we deliver this important upgrade to Sippy Downs Drive.
