Night works

As part of the Sippy Downs Drive Upgrade project driveway construction works are required at the entrance to Chancellor Park Golf Driving Range, 15 Sippy Downs Drive.

In order to ensure this 7-day trading facility can continue to operate as ‘business as usual’, night works are required.

Removal of the existing driveway and construction of a new, temporary driveway will take place this Sunday 17 March from 6pm to midnight.

These driveway works are required to accommodate the future road level of the upgraded Sippy Downs Drive.

What to expect during construction

No changes to traffic movements are expected along Sippy Downs Drive.

For safety reasons the Golf Driving Range entry will be closed during construction.

Traffic control will be in place to help facilitate truck movements.

Night lighting is required to allow the construction team to operate and for safety reasons.

Intermittent, medium level construction noise is to be expected including the operation of machinery and large vehicle movements complete with reversing beepers.

The project team will try to minimise the construction impacts on surrounding residents wherever safe and practical to do so.
